Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	 Awareness Identify Need & Collect Information	 Decision Analyze & Get Recommendation	 Outcome Take Action & Review Results
 Actions What does the customer do?	- Observe soil and weather conditions - Discuss with neighboring farmers - Collect information about suitable crops	- Enter soil and environmental details - Review crop recommendations - Select the most suitable crop	- Cultivate the recommended crop - Harvest the crop - Review farming results
 Touchpoint What part of the service do they interact with?	- Soil testing center - Weather reports - Agriculture officer	- OptiCrop application - Crop recommendation dashboard - Soil analysis report	- Yield report - Farming summary - Future recommendations
 Customer Thought What is the customer thinking?	- Which crop is best for my land? - Will rainfall be enough? - Can I avoid crop failure?	- Is this recommendation suitable? - Will it improve my yield? - Am I using resources efficiently?	- Was this the right decision? - Can I improve next season? - How can I increase my income?
 Customer Feeling What is the customer feeling?	- Curious - Concerned - Hopeful	- Confident - Motivated - Optimistic	- Satisfied - Relieved - Encouraged
 Process Ownership Who is in the lead on this?	Farmer	Farmer & OptiCrop	Farmer
 Opportunities How can we improve this stage?	- Easy soil testing - Local weather updates - Farmer awareness programs	- Better crop recommendations - Fertilizer guidance - Local language support	- Yield analysis - Farming history - Recommendations for the next season
